

FOR IMMEDIATE RELEASE

PARISH.UK launches revolutionary website providing comprehensive data for every parish in the UK

The innovative PARISH.UK is offering a wealth of data to everyone, including local demographic statistics, newly-released data from the 2021 Census, local house prices, planning applications, the latest Ofsted and CQC reports, and a directory of local businesses, as well as details of parish council contacts and precepts.

PARISH.UK is a one-stop-shop for the most up-to-date and accurate information about local areas for residents, businesses, and visitors. The website network is designed to be user-friendly, easy to navigate and free to use.

"We are thrilled to launch PARISH.UK and give visitors a single site to learn everything about a local area," said Alastair Gordon, founder of PARISH.UK.

"Our goal was to make it easy for people to access the information they need or want about their parish, whether to help them in their search for a school or care home, learn the selling prices of nearby properties, discover current planning applications or for the details of their local councillors."

Data from the 2021 Census has just been added for each Parish, providing a clear and useable breakdown of the huge amount of data gathered. Visitors can now learn about who lives in their area at the click of a button.

PARISH.UK's local business directory is a valuable resource for businesses looking to expand their reach, as well as for residents looking to find a local tradesperson, venue, shop or service. The directory is constantly updated and connects customers directly with the wealth of businesses in their area.

"We believe that PARISH.UK will be an essential resource for both residents and businesses," said Alastair. "Instead of trawling search engines looking for what they need, visitors can search their local area, and business owners can benefit from the large traffic PARISH.UK is already receiving."

"The network has already had thousands of Parish Councils update their details. We are constantly expanding the information available, so make sure to register your details to be notified when any new data becomes available in your area, from newly sold property prices to when new planning applications are submitted nearby," he added.

PARISH.UK is available now, and can be accessed at <https://parish.uk>
